PROFILE

A meticulous electrical engineer for designing, developing, and testing electrical devices and equipment. A well-versed communicator, adept at efficiently managing project work and ensuring great success for the organization.

EDUCATIONAL PROJECT

- Experimented with the available solutions towards finding the best one for the project
- Worked on idea generation and concept development for new or existing equipment/product.
- Worked on electrical control system design to realize concepts.
- Built and tested prototypes

SKILL

Electric Equipment

Electric Power Systems Design

Electrical Schematics

Testing Equipments

Tally Course

Engineering Designs

Prototype Creation & Tests

Analog System

COURSES

Electrical System Design

Kalam Institute of Technology, Berhampur
2024

EDUCATION

B. Tech in Electrical Engineering

Kalam Institute of Technology, Berhampur
2024

LANGUAGES

English, Hindi & Odia.
